2 AUG 1961

E. S. Brush & Sons
Pier 92
San Francisco 24, California

Attention Frank E. Brush

Gentlemen:

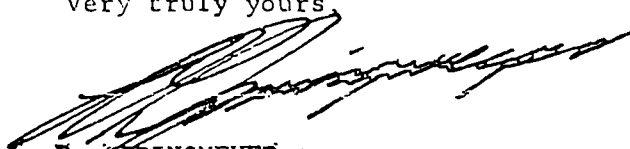

Your letter of 21 June 1960 requested permission to build a crossing for vehicular traffic to cross the Government owned railroad track at Armstrong Avenue near Ingalls Street in San Francisco, California.

The Government has an easement from the City and County of San Francisco for this railroad.

The Government will interpose no objection to your construction of the crossing at Armstrong Avenue provided the work will be accomplished at no expense to the Government.

It is suggested that you check with the City prior to construction.

Very truly yours

L. P. SPRINGMEYER
Director, Real Estate Division
By direction of the
District Public Works Officer

June 21, 1960

District Public Works Officer
12th Naval District
San Bruno, California

Gentlemen:

As a result of being forced to vacate our present location we have recently purchased 75,000 square feet of property, shown enclosed within red lines on the plat attached hereto, as the new location of our business.

Our only access to this property is over Armstrong Avenue which necessitates crossing the Navy railroad track at the point shown in green on the attached plat.

At the present time such access is not possible since the tracks are impassable to vehicles at that point due to the condition of the crossing.

We therefore respectfully request that you take whatever steps are possible in order to make the track passable to vehicles and facilitate the use of our property.

Very truly yours

E. S. Brush & Sons
